All, Some, None Statements

Read the *All*, *Some*, and *None* statements.

Then write *true*, *false*, or *can't tell* for each question.

All of the third graders take piano lessons.
Some of the fourth graders take drum lessons.
None of the fifth graders take drum lessons.

Remember!

All means "everyone."
Some means "one or more."
None means "no one."

1. Dan is in the third grade,
so he takes piano lessons.

2. John takes drum lessons,
so he is in fourth grade.

3. Colleen is in the fifth grade,
so she takes drum lessons.

4. Ellen takes piano lessons,
so she is in the third grade.

All of the books the library is selling cost \$3 each.
Some of the books are about sports.
None of the books are about football.

5. Ken bought a book from the library,
so the book is about sports.

6. Debbie bought a book from the
library, so the book is about football.

7. Reni bought a book about birds,
so she bought it from the library.

8. Marty bought a book from the
library, so he paid \$3 for it.
