

Name _____

A School Election

Collington School held an election for student council president. The table shows the voting results for each grade level.

As a member of the election committee, you must make a pictograph of the election results.

Grade	Marcia	Susan
2	121	126
3	105	110
4	176	105
5	123	109

1. Find the total number of votes for each girl.
2. Choose a symbol to represent the number of votes.
3. Decide how many votes each symbol will represent. Make a key that shows what the symbol stands for.
4. Draw the correct number of symbols in the graph.
5. Give your pictograph a title.

Answer the following questions using the table and graph.

6. Why is it easy to see the winner by looking at the graph?

7. How many total votes were cast? _____

8. Use subtraction to figure out the difference in votes between the two candidates.
