Flower Sale

Miss Richards's Flower Shop is having a week-long sale.

Flower Sale	
One dozen roses:	\$24
Mixed flower bouquet:	\$19
Wedding display:	\$72
Potted plant:	\$8

1. Marisa wants to buy one dozen roses and one bouquet. She has \$50 to spend. Can she buy both items? Use estimation to explain your answer.

2. Gary has \$100, and he wants to buy one of each of the four items. Does he have enough money? Explain your answer.

3. Which three items have costs that add up the closest to \$100? Explain how you solved this problem.

4. Explain why it is better to round to the nearest ten than to the nearest hundred when solving problems about the sale at Miss Richards's Flower Shop.
