# Read a Pictograph

The pictograph at the right shows the number of books that Eric, Gary, Kim, and Meg read during the summer.

1. Use these clues to write the names of the children next to the number of books they have read.

   • Eric has read the least books.
   • Kim has read twice as many books as Gary.
   • Gary has read twice as many books as Eric.

Books Read This Summer

Each stands for 2 books.

2. How many books has each person read?

   Eric _____   Gary _____   Kim _____   Meg _____

3. How many books have the children read altogether? _____

4. Write a subtraction sentence to show how many more books Kim read than Eric.

   _____

5. Show how the pictograph will change if each stands for 4 books.

Books Read This Summer

Each stands for 4 books.
