Name _____

Machine Work

Use the numbers in the IN box to make the machine work.
Use one number at a time and perform each operation between
the wavy lines in turn. Write the answers in the OUT box. For
example, in the first row of Exercise 1, $1 \times 2 = 2$, $2 \times 3 = 6$,
and $6 \div 2 = 3$.

1.

IN		OUT
1		$=$ **3**
2	$\times 2 \quad \times 3 \quad \div 2$	$=$ _____
3		$=$ _____

2.

IN		OUT
0		$=$ _____
5	$\times 3 \quad \times 1 \quad \div 5$	$=$ _____
10		$=$ _____

3.

IN		OUT
6		$=$ _____
12	$\div 3 \quad \div 1 \quad \div 2$	$=$ _____
18		$=$ _____
24		$=$ _____
