

"A Demo a Day"

Name:

Date:

Period:

Directions: After viewing the demonstration conducted by Mr. Eck, diagram what you just witnessed in the empty box below. (Feel free to use crayons/colored pencils.) After you have finished your diagram, answer the questions below using complete sentences. In your answers, make sure you use scientific terms that were discussed during the demonstration.

3. Explain what just happened in the demonstration. (Make sure you use complete sentences and scientific terms in your answer!)

4. What is this called and what caused this thermal energy transfer to occur? (Make sure you use complete sentences and scientific terms in your answer!)
