Reading Strategy

When you **summarize** you use your own words to retell the main ideas of a spoken or written work. A summary is generally no more than one-third the length of the original work.

SUMMARIZE

**Directions:** In the chart, record key information from each section of the article. You will use this information later when you write your summary. An example has been done for you.

Section	Key Information
Introduction	<i>scientists studying dinosaur fossils in Niger</i>

Copyright by McDougal Littell, a division of Houghton Mifflin Company
